SHEIKH MUKTADIR

FRONTEND REACT.JS DEVELOPER | PIXEL-PERFECT UI SPECIALIST

Frontend Developer with 2.2+ years of commercial experience in product-based companies. Gained real React.js hands-on experience while working with the team on EarnOn (social + rewards platform currently under development). Built pixel-perfect, high-traffic frontends for live travel booking platform (Zaps Travel) and cloud file-sharing product (eShare). Strengthened React skills by independently building & deploying two complete luxury real-estate portals (Almac & Auria – personal projects). Immediately available for Junior / Mid-Level Frontend or React roles.

Work Experience

Jul 2024 – Sep 2025
Frontend Developer
Bizionics Technologies Pvt Ltd, Hyderabad, India

- Working with the team on EarnOn – a social media + rewards platform currently under development – using React.js, Tailwind CSS, custom hooks, Context API and JavaScript.
- Built 30+ reusable, pixel-perfect React components (feeds, posts, wallet, profile, notifications).
- Improved performance by 50–60% using code-splitting, lazy loading, image optimization & critical CSS → 95–100 Lighthouse scores.
- Developed and maintained eShare (cloud file-sharing product) and marketing sites using HTML5, CSS3, Tailwind, Bootstrap and vanilla JavaScript.

Feb 2023 – Feb 2024
UI Developer
Zaps Marketing Pvt Ltd, Hyderabad, India

- Developed and maintained the complete frontend of Zaps Travel – a live high-traffic travel booking platform used by thousands daily.
- Converted complex Figma designs into 100% pixel-perfect, responsive, SEO-friendly code using HTML5, CSS3, Bootstrap 5 and vanilla JavaScript.
- Created a reusable component library that reduced development time by 40%.
- Implemented responsive layouts and interactive features (date pickers, search filters, multi-step booking flow) ensuring seamless experience across mobile, tablet and desktop devices.
