Creative Frontend & UI Developer with 2+ years of professional experience building responsive SaaS products using HTML5, CSS3, JavaScript (ES6+), and Tailwind CSS. Possessing advanced practical expertise in the React ecosystem (Hooks, Context API, Router) demonstrated through complex personal projects. Currently in Dubai on a Visit Visa and immediately available for work visa transfer.

WORK EXPERIENCE

Frontend Developer
Bizionic Technologies Pvt Ltd

07/2024 - 09/2025   *Hyderabad, India*

Key Responsibilities

- Developed and maintained responsive SaaS dashboards and high-converting landing pages for multiple flagship products, ensuring a consistent user experience.
- Built pixel-perfect, reusable UI components using HTML, CSS, Tailwind CSS, Bootstrap 5, and vanilla JavaScript, resulting in reduced development time.
- Implemented mobile-first interfaces with high attention to typography, spacing, and visual hierarchy across all platform modules.
- Improved page performance and responsiveness across major browsers and devices through code optimization.
- Ensured full cross-browser compatibility and performed continuous Quality Assurance (QA) testing to maintain high UI stability.

UI Developer
Zaps Marketing Pvt Ltd

02/2023 - 02/2024   *Hyderabad, India*

Key Responsibilities

- Built the complete frontend structure for Zaps Travel, a premium travel booking platform, ensuring a sleek and professional design.
- Created over 20 high-converting, responsive landing pages and marketing tools using HTML, CSS, Bootstrap 5, and JavaScript, contributing to a 15% increase in lead capture.
- Collaborated with the design team to translate complex Figma/Sketch designs into functional, accessible user interfaces.
- Supported the team with timely UI fixes, layout adjustments, and performance testing to optimize the overall user experience.
